LeetCode Top 10% Globally (1737 Rating, 700+ Problems) | CGPA 9.14 | AWS, CCNA, Microsoft AI/ML Certified

PROFESSIONAL SUMMARY

Software Engineer with 2+ years of experience designing and scaling full-stack applications using Java, the MERN stack, Python, and REST APIs on GCP and AWS infrastructure. Delivered measurable impact — 40% faster data ingestion, 30% improvement in ML model accuracy, and 90% reduction in security incidents — across production systems. Skilled in distributed data technologies including Apache Kafka, Spark, Hive, HBase, and BigQuery, with strong DSA fundamentals (LeetCode 1737 rating, Top 10% globally, 700+ problems solved). Certified in AWS, Cisco CCNA, and Microsoft AI/ML Engineering.

EXPERIENCE

Network Engineer | Moreyeahs Pvt. Limited | Indore

Mar 2026 – Apr 2026

- Automated end-to-end workflow pipelines via Make.com and multi-API integrations, cutting manual overhead across 3 cross-functional teams.
- Hardened authentication protocols through secure API integration, reducing unauthorized access incidents by 90% in production.
- Resolved 100+ critical issues across concurrent projects, improving system stability, maintenance turnaround, and MTTR using Python, JavaScript, and JSON.

Junior Software Engineer | iEnergizer IT Solutions | Noida / Gurugram

Feb 2025 – Aug 2025

- Built a full-stack MERN data visualization platform delivering real-time ML test results and forecast vs. actuals to stakeholders.
- Refactored a Python ML forecasting scheduler, boosting model accuracy and operational efficiency by 30%.
- Integrated external APIs resolving 20+ deployment errors; managed CI/CD pipelines, QA checks, and database integrity for 2 high-traffic production projects.

Software Development Engineer | Growwstacks Automation Solutions | Indore

Jan 2024 – Nov 2024

- Shipped an automated daily unit testing framework, strengthening code quality and accelerating bug detection for the engineering team.
- Gathered and translated cross-platform integration requirements into a centralized API aggregating event data from 5+ external platforms, eliminating redundant integrations.
- Engineered a GCP data pipeline (BigQuery, Cloud Storage, Python), reducing data ingestion time by 30% and improving pipeline integrity.

PROJECTS

AI-Powered Code Review Engine | MERN Stack, Gemini API, Render

- Engineered an AI code review engine using Gemini API, delivering multi-faceted feedback on algorithmic complexity, logic errors, and coding standards.
- Optimized RESTful API routing and CORS configuration on Render, achieving sub-100ms response times with stable production performance.

Data Visualization – COVID-19 | Next.js, GetStream, Tailwind CSS, Clerk, Apache Kafka

- Optimized streaming pipeline via Apache Kafka, achieving 40% faster data ingestion and 25% reduction in processing time.
- Engineered distributed data pipeline with Apache Spark, Hive, and HBase integrations, boosting processing efficiency by 30%.

Board Game Inc. | Next.js, React JS, Tailwind CSS, Stripe, MongoDB

- Developed complex client-side game logic in JavaScript for Sudoku, Tic-Tac-Toe, and Othello using recursion and Minimax search algorithms.
- Drove 1,000+ unique user sessions within first 30 days of launch, demonstrating strong early adoption and engagement.

Portfolio | HTML, CSS, JavaScript, GCP, BigQuery

- Designed a multi-page portfolio showcasing skills, experience, and projects with a reduction in data ingestion time via pipeline optimization.
- Orchestrated a robust GCP data pipeline using BigQuery, Cloud Storage, and Python for backend data integrity.

TECHNICAL SKILLS

Programming Languages: Java, C++, C, Python, JavaScript, TypeScript, SQL (MySQL, PostgreSQL), Bash

Frontend & UI: React JS, Next.js (SSR/SSG), AngularJS, Redux, jQuery, HTML5, CSS3, Bootstrap, MUI

Backend & APIs: Node.js, Express, Django, REST APIs, Socket.io, Web Scraping, MongoDB, Linux, Spring Boot, Microservices

Cloud & Data: GCP (BigQuery, Cloud Storage), AWS, Docker, Airflow, Apache Spark, Hive, HBase, Kafka, Kubernetes

DevOps & Process: Git, GitHub, GitLab, CI/CD, Agile, Scrum, Software Design, Requirements Gathering, Networking (CCNA), OS

Quality & Practices: QA / Testing, Code Quality, System Maintenance, Analytical & Problem-Solving Skills

Data Science / ML: Machine Learning, Data Analytics, AI, Risk Management, Data Structures & Algorithms

EDUCATION

Bachelor of Technology in Computer Science — Medi-Caps University, Indore, India | CGPA: 9.14 | Mar 2020 – Jun 2024

CERTIFICATIONS

- Amazon Web Services (AWS) — Amazon | Sep 2023 – Oct 2023
- Cisco Certified Network Associate (CCNA) — Cisco | Jan 2024 – Mar 2024
- Microsoft AI & ML Engineering — Microsoft | Sep 2024 – Dec 2024

ACHIEVEMENTS & POSITIONS OF RESPONSIBILITY

- LeetCode Top 10% Globally — 1737 rating, 700+ DSA problems solved.
- Programming Mentor, BitByte – The Programming Club — Mentored 20 students through their first DSA and project milestones at Medi-Caps University.
- GDSC Flutter Quiz, IIT Indore (2023) — Won 1st Prize, scoring ~9,000 points.
- HacktoberFest 2022 — Completed with 3 badges for open-source contributions.
- Google Kickstart 2022 — Ranked 3,394 out of 17,464 global participants.
